

REMARKS/ARGUMENTS:

Applicant has considered the Advisory Action and is unclear as to the basis for refusing to enter the last filed Amendment, which simply put the claims the Examiner indicated to be allowable into independent form. Nonetheless, applicant has again put those claims into independent form, and in addition has added a number of dependent claims that should also be patentable.

Reconsideration and favorable action are requested.

Respectfully submitted,

Dated: April 13, 2009
